AI Research Engineer

Life is messy. Guidance has to meet that reality.

Health. Income. Home. Relationships.

Health

Income

Home

Relationships

The practical question

Can we make the guidance easier to inspect without hiding its conditions and exceptions?

Three ways to make the work inspectable

01

Help me read

Keep explanations beside the source.

02

Help me investigate

See selected evidence — and the missing branch.

03

Help me challenge

Inspect relationships, requirements and limits.

Public information only

No claimant data. No individual award decision.
No operational benefits calculator.

5 minutes of context • 30 minutes of technology and demonstrations • 10 minutes of questions

ARC asks: can a system adapt to unfamiliar tasks?

2019

ARC introduced

Infer a new rule from a few examples.

2024

The o3 breakthrough

GPT-4o: 5%
o3-preview: 75.7% / 87.5%

2025

ARC-AGI-2

Harder symbolic and compositional tasks.

2026

ARC-AGI-3

Interactive exploration, learning and action.

The 2024 scores are ARC-AGI-1 semi-private results.
The higher o3 configuration used about 172× the compute.

Different generations do not share one interchangeable percentage scale.

[Chollet \(2019\)](#); ARC Prize launch reports and o3 evaluation • detailed costs and dates in appendix

The surrounding system changes the result

GPT-6 Astra • high reasoning effort • semi-private evaluation • 3 September 2026

Standard harness

54.8%

Visible notes carried forward

Provider Adapter harness

99.9%

Reasoning state retained + context compaction

A benchmark result describes an evaluated system — not just a model name.

Retaining internal reasoning state is not the same as an inspectable evidence trail.

ARC Prize, 3 September 2026 • not a current leaderboard claim or proof of AGI

New ways to retain understanding and control

“not because LRMs got perfect but because they’re so fast at doing things that you can develop new workflows around them”

François Chollet • excerpt from the post supplied for this presentation

Test

Audit

Visualise

Challenge

Our application: make the evidence, interpretations and unanswered questions visible.

LRM = large reasoning model • supplied quotation; original X post was not independently retrieved

From documents to evidence people can inspect

513

captured DMG and
ADM documents

19,090

pages in the
processing ledger

893

pages with no usable
extracted text

OKF = Open Knowledge Format • OKF+ = the project's additional profiles and conventions

Source text ≠ extracted text ≠ proposed meaning ≠ reviewed conclusion

27 September 2026 release record • processing coverage is not completeness or specialist review

Permission-aware AI: architecture and access

Authorise before exposure — not only before answering

Context assembly and authorisation span layers 2–4.

Permission-aware flow

- 1 Bind identity, delegation, workload and purpose
- 2 Discover only permitted metadata
- 3 **Authorise retrieval and assembly**
- 4 Re-check permissions at each material hop
- 5 **Assemble minimal, authorised model context**
- 6 Authorise output disclosure
- 7 **Authorise actions separately**

OKF: knowledge, not access enforcement

Primary home: L2 • Supports L4 and L5
No live access-control truth, credentials or allow/deny decisions.

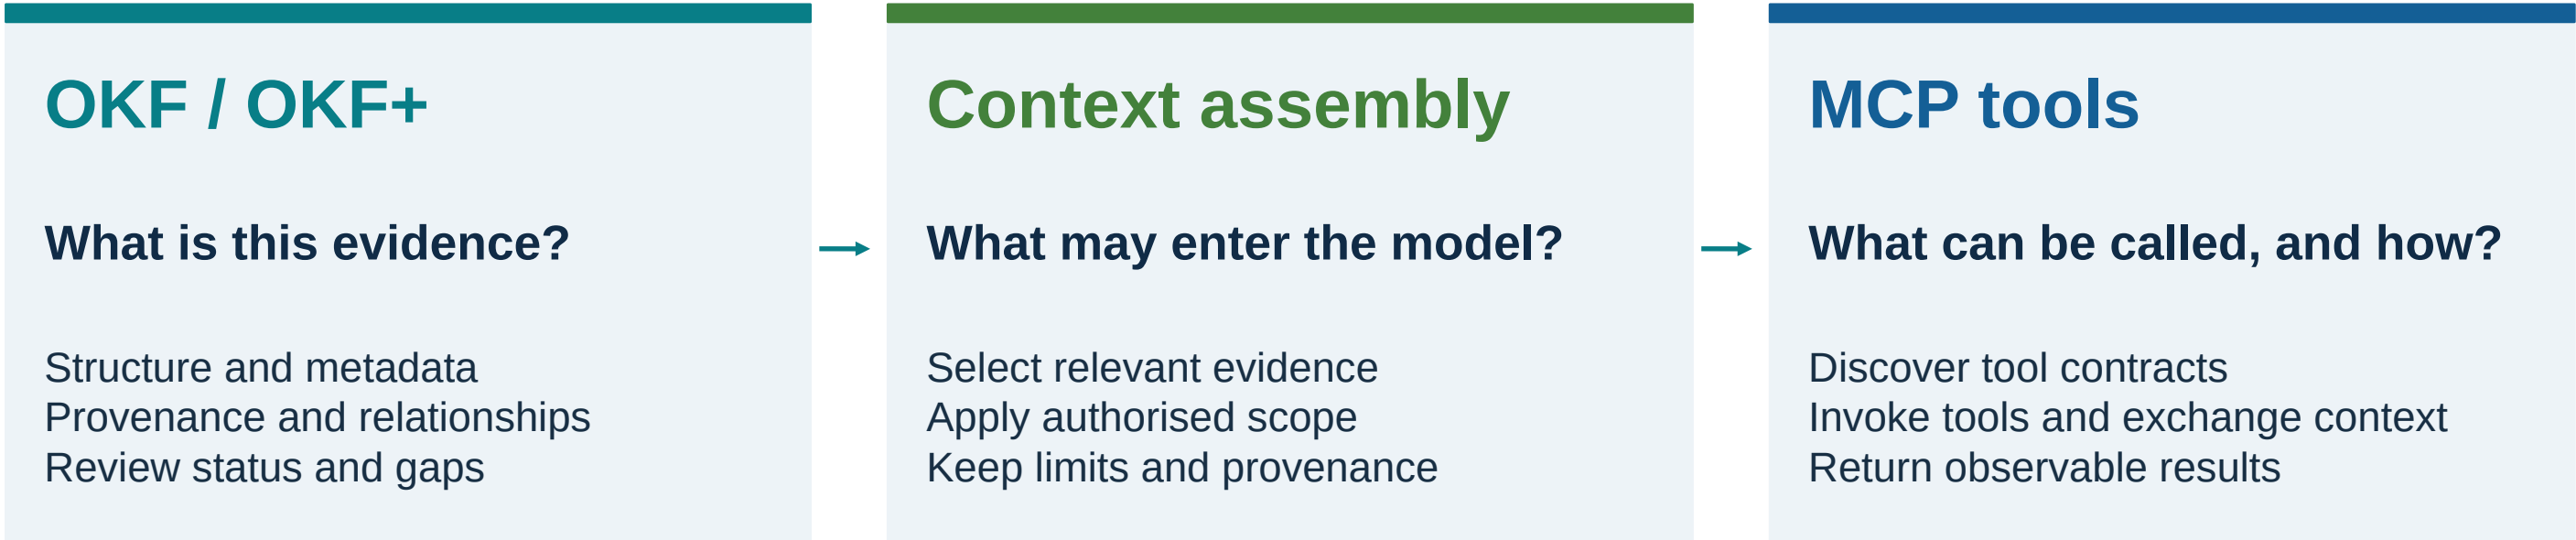

Blocking an answer cannot undo earlier disclosure to a model, processor, cache or log.

Editable adaptation of the supplied six-layer diagram and notes • thinking aid, not implemented-control evidence

Trust meets execution

Policy, identity and authorisation

Enforced by the runtime and services — not by OKF

WebMCP

Page-defined tools for a shared browser interface • draft API; actual host support must be tested

Knowledge can inform a permission decision. It cannot grant permission.

[Supplied architecture, updated synthesis](#) • [official OKF, MCP and WebMCP sources](#) in notes

Start with the source, not the assistant’s answer

RETAINED SOURCE • DMG 60025 • PDF pages 3–4

Introduction

60025 [See [DMG memo 12/23](#)] [See [DMG memo 12-25](#)] The conditions for entitlement are that the claimant

- 1. is engaged in caring for a severely disabled person for any day¹ (see DMG 60035 - 60042) **and**
- 2. is regularly and substantially engaged in caring for that person² (see DMG 60035 - 60042) **and**
- 3. is not gainfully employed³ (see DMG 60051 - 60052) **and**
- 4. is aged 16 or over⁴ (see DMG 60058) **and**
- 5. is not in FTE⁵ (see DMG 60068 - 60081) **and**
- 6. satisfies prescribed conditions of residence or presence in GB⁶ (see DMG Chapter 07 Part 2).

Six conditions

Abbreviations, cross-references and qualifications have to be read together.

Note 1: The claimant does not have to be related to the severely disabled person⁷.
Note 2: See DMG 60033 for the meaning of severely disabled person.
1 SS CB Act 92, s 70(1); 2 s 70(1)(a); 3 s 70(1)(b); 4 s 70(3); 5 s 70(3); 6 s 70(4); 7 SS (ICA) Regs, reg 6

The notes and printed references continue on the next page.

The following reading help is separate from the preserved source.

S01 • exact retained PDF typography; source capture is not a new legal-applicability check

Help beside the passage — not a substitute for it

SOURCE-BOUND READING HELP • PROPOSED, NOT REVIEWED

5. is not in **FTE5** (see DMG 60068 – 60081) and

6. satisfies prescribed conditions of residence or presence in GB6 (see DMG Chapter 07 Part 2).

expansion

Candidate status: **proposed**. This is not reviewed guidance.

Proposed scope: dmɡ-vol10-ch60; printed abbreviation source: dmɡ-abbreviations-0db6c476b0.

Proposed expansion from the named printed table: Full-Time Education. This meaning remains a candidate for the declared document scope.

► Proposed printed-table support

Exact source occurrence above. Separately proposed help below.

S02 • real FTE help-card interaction • candidate help is not official guidance

Follow this reference — not just this number

OCCURRENCE-SPECIFIC NAVIGATION • NOT A LEGAL FINDING

Body marker • source page 3

5. is not in FTE5 (see DMG 60068 – 60081) and

Paired printed reference • source page 4

1 SS CB Act 92, s 70(1); 2 s 70(1)(a); 3 s 70(1)(b); 4 s 70(3);
5 s 70(3); 6 s 70(4); 7 SS (ICA) Regs, reg 6

Three different things

Condition 5

Raised marker 5

Reference: s 70(3)

A dated link resolves navigation, not legal applicability or dependency completeness.

S03 • actual marker-to-footer navigation; dated target retained in receipt

Two dates. One important missing boundary.

“Where a child is awarded the highest-rate care component of DLA from 26 January 2025, but the change is reported to Universal Credit on 28 March 2026, what’s the effective date of the higher disabled-child addition, and from which assessment period should it be paid?”

26 January 2025

DLA entitlement date stated
in the question

28 March 2026

Change reported to
Universal Credit

Not supplied

Assessment-period
start and end dates

Investigate the rule branch before attempting an answer.

Nick's original question • DLA = Disability Living Allowance • no assessment-period dates have been invented

The retained retrieval missed the relevant branch

HISTORICAL OBSERVATION • OUTSIDE THE FROZEN 40 • NOT RERUN

What the current system did

The retained 19 September ADM A4 PDF has SHA-256 4933d66a...58a8e8 ; F1 has 124b7e41...5b8731 . Their exact local pages and stable passage IDs are in the [case record](#). The A4 text was also checked against the [official PDF](#) on 24 September 2026. The F1 web URL could not be opened in that check; its retained PDF was available locally. These are official guidance sources, while the extracted text and passage boundaries are unreviewed project projections.

One file-backed, hash-checked replay of the unchanged source and Explorer engine used the same 512 KiB/64-record/128-relationship/depth-6 limits as the workbench. It selected F1123 but missed A4361, A4352 and F1120. It returned insufficient , used 522,141 bytes and reported query, candidate and resource budget omissions. It also attached the unrelated frozen Staff 008 requirement about a different benefit. This measures retrieval and task routing, not whether an AI could give a correct legal answer.

To repeat that historical observation with a local Explorer checkout whose context-engine hashes match the case record, run:

```
node scripts/replay_uc_supersession_case.mjs --explorer-root /path/to/pinned-okf-explorer
```

The script reads only declared local source shards, verifies their bytes and hashes, makes no model or network calls, and checks the retained result. A later repair should have a new comparison receipt; it should not rewrite this failed baseline.

The question still needs the UC assessment-period dates, the actual start of the highest DLA care entitlement, responsibility for the child, any earlier notifications and intervening decisions, jurisdiction and applicable legal version. ADM A4361 cites the 2013 Decisions and Appeals Regulations, Schedule 1 paragraph 31; F1123 cites UC regulation 24. Those statutory bodies were not in the retained local legal-body set, and the live legislation.gov.uk requests returned HTTP 429 in this investigation. They remain a verification task rather than a silently supplied rule.

Next evaluation gate

Keep this observed miss intact. Add a versioned source-led route only after reviewing the statutory and guidance dependencies; then replay this case and separately frozen new phrasings with wrong-rate, wrong-family, changed DLA date and ordinary-late-rule controls. Measure passage selection, exact source spans, exception delivery, unknown dates and unrelated task activation separately. Keep insufficient and no individual award claim until a specialist accepts the full rule and applicable facts. The [BL007 evidence-profile work](#), [BL006 legal reconciliation](#) and [BL025 workbench review](#) remain the appropriate open gates.

Separate leads: Demo 2 and hospital coverage

A separate public [Demo 2 overview](#) describes a Pension Credit application concept with CASA and eventual submission through tools. The

Selected

F1123

Not selected

A4361, A4352 and F1120

Also activated an unrelated Staff 008 requirement.

Result remained insufficient.

Open the missing source — and keep the exception

HUMAN / SOURCE INSPECTION • NOT SELECTED BY THE PRECEDING REPLAY

UC and award of other benefits

A4361 In the case of UC where the claimant or a member of their family becomes entitled to another relevant benefit, ceases to be entitled or the rate of another such benefit alters then the superseding decision takes effect¹ from the first day of the assessment period in which entitlement to the other benefit or an alteration in its rate arises or entitlement ends.

1 [SS Act 98, s 8\(3\)](#); [DAWAP\(S\)Regs, reg 2](#); [DACYP \(S\)Regs, reg 2](#); [UC, PIP, JSA & ESA \(D&A\) Regs, Sch 1, Part 4, para 31\(1\) & 31\(2\)\(a\)](#)

A4352 explicitly points to A4360–A4361. Read the exception with the ordinary late-notification rule.

Still needed: assessment-period boundaries, relevant facts and a reviewed applicability determination.

S06 • retained ADM A4, PDF pages 36 and 34 • printed references preserved

A fresh question can expose a useful evidence path

“Can Pension Credit treat capital as still held after someone has got rid of it, and are there exceptions?”

DMG Vol 14 Ch 84: Deemed weekly income from capital — 84861 — What is the amount of notional capital

Exact frozen source spans; logical boundary proposal; applicability unreviewed · normalized · unreviewed-specialist-review-required

Frozen DMG dmg-vol14-ch84; captured role: substantive. Boundary: machine candidate, unresolved. A structural unit is not a complete legal rule or applicability decision. Capture dates are not effective dates. Check governing headings, definitions, exceptions and current source.

ARC: keep dataset, configuration and cost together

Date	Evaluation	Score	Qualification
Sep 2024	GPT-4o baseline	5%	ARC-AGI-1 semi-private; public score was 9%.
Dec 2024	o3-preview / lower compute	75.7%	ARC-AGI-1 semi-private.
Dec 2024	o3-preview / higher compute	87.5%	About 172× the compute.
24 Mar 2025	ARC-AGI-2 launched	New benchmark	Known design weaknesses were addressed; not an o3 reaction only.
25 Mar 2026	ARC-AGI-3 launched	New score design	Interactive tasks; completion and action efficiency.

Cost qualification

The later repricing gives \$4,560 per task / \$456,000 for the 100-task high-compute run. These are retrospective inference estimates, not a verified December 2024 invoice.

Primary sources checked 29 September 2026 • no cross-generation “intelligence percentage”

Retained source context: DMG 60025

Conditions for entitlement to Carer's Allowance 60025 - 60081

[Introduction](#) 60025 - 60032

[Meaning of severely disabled person](#) 60033 - 60034

[The caring condition](#) 60035 - 60044

Breaks in care of the severely disabled person 60045 - 60049

Break in care due to severely disabled person in hospital 60050

Gainful employment 60051 - 60057

[The age condition](#) 60058

People who have reached age 65 60059 - 60061

8 weeks run on 60062

Women aged 65 before 28.10.94 60063 - 60067

Full-time education 60068 - 60081

Introduction

60025 [See [DMG memo 12/23](#)] [See [DMG memo 12-25](#)] The conditions for entitlement are that the claimant

- 1. is engaged in caring for a severely disabled person for any day¹ (see DMG 60035 - 60042) **and****
- 2. is regularly and substantially engaged in caring for that person² (see DMG 60035 - 60042) **and****
- 3. is not gainfully employed³ (see DMG 60051 - 60052) **and****
- 4. is aged 16 or over⁴ (see DMG 60058) **and****
- 5. is not in FTE⁵ (see DMG 60068 - 60081) **and****
- 6. satisfies prescribed conditions of residence or presence in GB⁶ (see DMG Chapter 07 Part 2).**

Note 1: The claimant does not have to be related to the severely disabled person⁷.

Note 2: See DMG 60033 for the meaning of severely disabled person.

1 SS CB Act 92, s 70(1); 2 s 70(1)(a); 3 s 70(1)(b); 4 s 70(3); 5 s 70(3); 6 s 70(4); 7 SS (ICA) Regs, reg 6

60026 [See [DMG memo 12/23](#)] However, where two or more people are caring for the same severely disabled person, only one of them will be entitled to CA for any day¹. It will be up to them to choose and elect who will be entitled to CA² by giving the DM a notice in writing signed by all of them specifying who should be entitled to CA³. If there is no election the DM should decide who should have entitlement to CA⁴.

1 SS CB Act 92, s 70(7); 2 s 70(7)(a); 3 SS (ICA) Regs, reg 7(1); 4 SS CB Act 92, s 70(7)(b)

Example

Dennis cares for his mother-in-law whilst his wife works, from October to February, a period of 5 months. He then gets a full-time job so he relinquishes the CA as his wage disqualifies him. However, his wife decides to care for her mother, and reduces her hours and income so that she can do this. She then claims CA for her mother from the date that Dennis relinquished his caring responsibilities.

60027 - 60032

Meaning of severely disabled person

60033 [see [DMG memo 02/25](#)] "Severely disabled person" means a person for whom

1. AA¹ or
2. the care component of DLA at the highest or middle rate or pension age disability payment² or
3. CAA payable as
 - 3.1 an increase of IIDB³ or
 - 3.2 an increase of an old scheme allowance⁴ or
 - 3.3 an increase of WC⁵ or
 - 3.4 a WDisP⁶ or
4. the daily living component of PIP at the standard or enhanced rate⁷ or

REQUESTED STAFF-016 → STAFF-039 TRANSITION NOT ESTABLISHED

I couldn't complete this retry. The selected workbench tab is still on **staff-016 → Requirements**: the browser's developer connection detached again, and the existing staff-039 tab did not return its page content. I therefore cannot verify a change to the displayed page or explain three Interactions entries from returned evidence.

No award was calculated.

What was observed

Two follow-ups failed to attach. No returned staff-039 rows; Requirements stayed displayed.

Earlier tool use was reported, not retained as a raw transcript.

Manual inspection is separate. Voice was not tested.

S12 • real native-window capture, privacy-redacted • no successful interaction was fabricated

A local review proposal is not specialist acceptance

EVIDENCE · NORMALIZED

DMG Vol 14 Ch 84: Deemed weekly income from capital — 84001 — Introduction

Exact frozen source spans; logical boundary proposal; applicability unreviewed · unreviewed-specialist-review-required

Review and change proposal

Write a local proposal for a specialist to assess. Downloading it does not edit the original document, extraction, semantic source or published package.

Proposed review outcome

Needs specialist review

Evidence and suggested change

Presentation rehearsal only — non-specialist, unreviewed proposal. Check the complete source passage, applicable date and capital exceptions before accepting any interpretation. No source or corpus change is requested by this capture.

Download review proposal

Proposal downloaded locally. It has not changed the source or publication.

Actually exported

A local, non-specialist rehearsal proposal was downloaded.

Unreviewed.
Not adopted.
Not published.

S13 • review-exports/ contains the actual JSON • no repository publication or entitlement decision

Delivery identity, navigation and non-regression

Not a new measurement of legal correctness, answer accuracy or improved decisions.

The capture shows the historical 27 September report; those checks were not rerun for the slide.

S15 / frozen release record • separate technical and specialist-review gates

A4352: the ordinary rule contains an exception pointer

Change notified outside the time limits

A4352 Where an advantageous change of circumstances is notified later than one month after it occurred, or for UC after the end of the assessment period in which the change occurred (or such longer period as the DM may have allowed under A4310 - A4315) then the effective date of the supersession will be

1. for ESA and JSA¹, from the beginning of the benefit week in which the notification was made
2. for PIP², from the date of notification of the change (but see A4353)
3. for UC³, from the first day of the AP in which the notification was made (but see A4360 - A4361)
