NICK BRIGGS / DWP

From Horizon Scanning to Horizon Walking

Making public DWP guidance easier to read, investigate and challenge

Nick Briggs

Lead Technical Architect (Citizen Information)
Department for Work and Pensions (DWP)
Digital and Transformation Group

30 September 2026

Supporting

Chris Page

DCMS (BDUK) + Warwickshire CC.
AI Research Engineer

Independent experimental demonstration • Public sources

Nick Briggs / DWP01

02 Main presentation

WHY THIS MATTERS

Life is messy. Guidance has to meet that reality.

Health. Income. Home. Relationships.

Health

Income

Home

Relationships

The practical question

Can we make the guidance easier to inspect without hiding its conditions and exceptions?

Franning from Nick's presentation outline and supplied background

Independent experimental demonstration • Public sources

Why this matters02

03 Main presentation

TODAY'S EXPERIMENT

Three ways to make the work inspectable

01

Help me read

Keep explanations beside the source.

02

Help me investigate

See selected evidence — and the missing branch.

03

Help me challenge

Inspect relationships, requirements and limits.

Public information only

No claimant data. No individual award decision.
No operational benefits calculator.

5 minutes of context • 30 minutes of technology and demonstrations • 10 minutes of questions

Independent experimental demonstration • Public sources

Today's experiment03

04 Main presentation

CAPABILITY IS NOT ASSURANCE

ARC asks: can a system adapt to unfamiliar tasks?

2019

ARC introduced

Infer a new rule from a few examples.

2024

The o3 breakthrough

GPT-4o: 5%
o3-preview: 75.7% / 87.5%

2025

ARC-AGI-2

Harder symbolic and compositional tasks.

2026

ARC-AGI-3

Interactive exploration, learning and action.

The 2024 scores are ARC-AGI-1 semi-private results.
The higher o3 configuration used about 172x the compute.

Different generations do not share one interchangeable percentage scale.

Chollet (2024) "o3m" Price (source) reports and o3 evaluation • detailed costs and more in appendix

Independent experimental demonstration • Public sources

Capability is not assurance04

05 Main presentation

A DATED ARC-AGI-3 COMPARISON

The surrounding system changes the result

GPT-6 Astra • high reasoning effort • semi-private evaluation • 3 September 2026

Standard harness

54.8%

Visible notes carried forward

Provider Adapter harness

99.9%

Reasoning state retained + context compaction

A benchmark result describes an evaluated system — not just a model name.

Retaining internal reasoning state is not the same as an inspectable evidence trail.

ARC-Private 3 September 2026 • not a current benchmark claim or record of AGI

Independent experimental demonstration • Public sources

A dated ARC-AGI-3 comparison05

06 Main presentation

FRANÇOIS CHOLLET'S WORKFLOW ARGUMENT

New ways to retain understanding and control

"not because LLMs got perfect but because they're so fast at doing things that you can develop new workflows around them"

François Chollet • excerpt from the post supplied for this presentation

Test

Audit

Visualise

Challenge

Our application: make the evidence, interpretations and unanswered questions visible.

LLM • large reasoning model • limited questions, original X and only not independently reviewed

Independent experimental demonstration • Public sources

François Chollet's workflow argument06

07 Main presentation

HOW THE CORPUS WAS PREPARED

From documents to evidence people can inspect

513

captured DMG and ADM documents

19,090

pages in the processing ledger

893

pages with no usable extracted text

OKF = Open Knowledge Format • OKF+ = the project's additional profiles and conventions

Preserve

Extract

Structure

Assemble

Inspect

Source text ≠ extracted text ≠ proposed meaning ≠ reviewed conclusion

22 September 2026 release record • processing evidence is not comprehensive or specialist review

Independent experimental demonstration • Public sources

How the corpus was prepared07

08 Main presentation

CONCEPTUAL ARCHITECTURE

Permission-aware AI: architecture and access

Authorise before exposure — not only before answering

6

Policy and governance

Principles, standards and accountability

5

Federation control

Cross-organisational trust and usage contracts

4

Agent orchestration

Workflows, context assembly and model visibility

3

Zero-trust security and identity

Identity, authentication and continuous verification

2

Local execution and tools

Sources, connectors and trusted environments

1

Decentralised data stores

Distributed data, provenance and lifecycle

Context assembly and authorisation span layers 2–4.

Blocking an answer cannot undo earlier disclosure to a model, processor, cache or log.

Established adaptation of the supplied 5-layer diagram and notes • thinking aid, not implemented control evidence

Independent experimental demonstration • Public sources

Conceptual architecture08

Slide contact sheet | 09.16 | 30 September 2026

KNOWLEDGE INFORMS, CONTROLS ENFORCE, TOOLS EXECUTE.

Trust meets execution

Policy, identity and authorisation Enforced by the runtime and services — not by OKF

OKF / OKF+	Context assembly	MCP tools
What is this evidence? Structure and metadata Provenance and relationships Review status and gaps	What may enter the model? Select relevant evidence Apply authorised scope Keep limits and provenance	What can be called, and how? Discover tool contracts Invoke tools and exchange context Return observable results

WeMbMCP Page-defined tools for a shared browser interface • draft API; actual host support must be tested

Knowledge can inform a permission decision. It cannot grant permission.

[Detailed architecture, updated context API, official OKF, MCP and WeMbMCP sources in codes](#)

Independent experimental demonstration • Public sources

Knowledge informs, Controls enforce, Tools execute.

01 / HELP READ READ

Help beside the passage — not a substitute for it

SOURCE-BOUND READING HELP • PROPOSED, NOT REVIEWED

5. is not in **FTE**5 (see [DMG 68068 – 68081](#)) and

6. satisfies prescribed conditions of residence or presence in [GB6](#) (see [DMG Chapter 07 Part 2](#)).

expansion

Candidate status: **proposed**. This is not reviewed guidance.

Proposed scope: [dmg-vol10-ch60](#); printed abbreviation source: [dmg-abbreviations-0db6c476bb0](#).

Proposed expansion from the named printed table: Full-Time Education. This meaning remains a candidate for the declared document scope.

► Proposed printed-table support

Exact source occurrence above. Separately proposed help below.

[dmg + read FTE help page interaction + candidate table is not official guidance](#)

Independent experimental demonstration • Public sources

02 / HELP READ READ11

Q2 | HELP ME INVESTIGATE

Two dates. One important missing boundary.

“Where a child is awarded the highest-rate care component of DLA from 26 January 2025, but the change is reported to Universal Credit on 28 March 2025, what’s the effective date of the higher disabled-child addition, and from which assessment period should it be paid?”

26 January 2025

DLA entitlement date stated in the question

28 March 2026

Change reported to Universal Credit

Not supplied

Assessment period start and end dates

Investigate the rule branch before attempting an answer.

[View a original question](#) • [DLA & Disability Living Allowance](#) • [an assessment period dates have been revised](#)

Independent experimental demonstration

Public sources

Q2 | Help me investigate

33

02 / SEPARATE SOURCE INSPECTION

Open the missing source — and keep the exception

HUMAN / SOURCE INSPECTION • NOT COVERED BY THE PRECEDING REPLAY

UC and award of other benefits

A4361 In the case of UC where the claimant or a member of their family becomes entitled to another relevant benefit, ceases to be entitled or the rate of another such benefit alters then the superseding decision takes effect¹ from the first day of the assessment period in which entitlement to the other benefit or an alteration in its rate arises or entitlement ends.

1 SS Act 98, s 9(3); DAWAP(S)Regs, reg 2; DACYP (S)Regs, reg 2; UC, PIP, JSA & ESA (D&A) Regs, Sch 1, Part 4, para 31(1) & 31(2)(a)

A4352 explicitly points to A4360–A4361. Read the exception with the ordinary late-notification rule.

Still needed: assessment-period boundaries, relevant facts and a reviewed applicability determination.

[Download A4352 A4_PDF pages 36 and 38 & printed references prepared](#)

Independent exponential demonstration • Public sources
02 / Separate source inspection

01 / HELP ME READ

Start with the source, not the assistant's answer

RETAINED SOURCE • DMG 60025 • PDF pages 3–4

Introduction

60025 (see [DMG memo 12/23](#)) (see [DMG memo 12/25](#)) The conditions for entitlement are that the claimant

1. is engaged in caring for a severely disabled person for any day³ (see DMG 60035 - 60042) **and**
2. is regularly and substantially engaged in caring for that person³ (see DMG 60035 - 60042) **and**
3. is not gainfully employed⁴ (see DMG 60051 - 60052) **and**
4. is aged 16 or over⁵ (see DMG 60058) **and**
5. is not in FTE⁶ (see DMG 60068 - 60081) **and**
6. satisfies prescribed conditions of residence or presence in GB⁶ (see DMG chapter 07 Part 2).

Six conditions

Abbreviations, cross-references and qualifications have to be read together.

Notes: 1) The list does not include the person's severely disabled partner.

Notes: 2) See DMG 60035 for the meaning of severely disabled person.

3) GB is a UK or NI or NI(4) or NI(5) or NI(6) or NI(7) or NI(8) or NI(9) or NI(10) or NI(11) or NI(12) or NI(13) or NI(14) or NI(15) or NI(16) or NI(17) or NI(18) or NI(19) or NI(20) or NI(21) or NI(22) or NI(23) or NI(24) or NI(25) or NI(26) or NI(27) or NI(28) or NI(29) or NI(30) or NI(31) or NI(32) or NI(33) or NI(34) or NI(35) or NI(36) or NI(37) or NI(38) or NI(39) or NI(40) or NI(41) or NI(42) or NI(43) or NI(44) or NI(45) or NI(46) or NI(47) or NI(48) or NI(49) or NI(50) or NI(51) or NI(52) or NI(53) or NI(54) or NI(55) or NI(56) or NI(57) or NI(58) or NI(59) or NI(60) or NI(61) or NI(62) or NI(63) or NI(64) or NI(65) or NI(66) or NI(67) or NI(68) or NI(69) or NI(70) or NI(71) or NI(72) or NI(73) or NI(74) or NI(75) or NI(76) or NI(77) or NI(78) or NI(79) or NI(80) or NI(81) or APPENDIX / ORIGINAL PDF PAGES

Retained source context: DMG 60025

Conditions for retention to Care's Allowance 60025 - 60001

Introduction

158 ordered passage segments - 3 extraction blocked pages. Specialist acceptance: not recorded.

ADM A2, page 10

No usable extracted text is not proof that the PDF page is blank.

Processing coverage is not complete explanation or review.

25

26 Appendix

APPENDIX / EVIDENCE IDENTITIES

Fresh assembly and saved inspection are different packages

Fresh S07 capital assembly

44 records / 68 relationships

522,995 bytes used

U07 and DMG 84861 selected

Insufficient and truncated

Saved S08-S09 staff-006

30 records / 47 relationships

516,227 bytes used

DMG 84001 fallback inspected

Insufficient and truncated

S07 requested: 64 records • 128 relationships • depth 6 • 524,288 bytes. A 32,768-byte delivery part is not the whole-package budget.

26

27 Appendix

APPENDIX / COVERAGE LIMITS

An extraction gap must remain a visible gap

ADM A2, page 10

No usable extracted text is not proof that the PDF page is blank.

Processing coverage is not complete explanation or review.

27

28 Appendix

APPENDIX / GENUINE NEGATIVE EVIDENCE

The sidebar boundary: preserve the failed transition

REQUESTED STAFF-016 -- STAFF-039 TRANSITION NOT ESTABLISHED

I couldn't complete this retry. The selected workbench tab is still on staff-016 → Requirements: the browser's developer connection detached again, and the existing staff-039 tab did not return its page content. I therefore cannot verify a change to the displayed page or explain three interactions entries from returned evidence.

What was observed

Two follow-ups failed to attach. No returned staff-039 rows; Requirements stayed displayed.

Earlier tool use was reported, not retained as a raw transcript.

Manual inspection is separate. Voice was not tested.

28

29 Appendix

APPENDIX / REVIEW AND FEEDBACK

A local review proposal is not specialist acceptance

Actually exported

A local, non-specialist rehearsal proposal was downloaded.

Unreviewed. Not adopted. Not published.
